How Far Does Your Beef Travel To Get To You?

*each strip of road represents 100 miles

Local Direct: Local producers sell directly to consumers without marketing intermediaries.

Local Intermediated: Locally produced food passes through one or more middlemen before reaching consumers.

Mainstream: Food moves through major conventional grocery supply chains without a strong emphasis on connecting consumers with the original producer.

King, Robert P., Michael S. Hand, Gigi DiGiacomo, et al. 2010. Comparing the Structure, Size, and Performance of Local and Mainstream Food Supply Chains. Economic Research Report ERR-99. U.S. Department of Agriculture, Economic Research Service.
